Safety Data Sheet

(Mixture of Hydroxide form Type 1 Anion and Hydrogen form Cation resin)

Effective date February 23, 2018

Section 1: Identification

1b  Common Name  Mixed Bed ion exchange resin

1c  Intended use  All applications where deionized water is needed.

1d  Manufacturer  ResinTech, Inc.

Address  160 Cooper Road, West Berlin, NJ 08091 USA

Phone  856-768-9600

Email  ixresin@resintech.com

Section 2: Hazard Identification

2a  OSHA Hazard classification  Not hazardous or dangerous

<table>

2b  Product description  Amber, tan, dark brown, or black cation beads blended with white, yellow, orange, or red anion beads, all approx. 0.6 mm diameter.

2c  Precautions for use  Safety glasses and gloves recommended. Slipping hazard if spilled.

2c  Potential health effects  Will cause eye irritation. May cause mild skin irritation. Ingestion is not likely to pose a health risk.

2d  Environmental effects  This product may alter the pH of any water that contacts it.
H315: Causes skin irritation (Category 2)
H319: Causes serious eye irritation (Category 2A)

Precautionary Statements
P264: Wash hands thoroughly after handling.
P280: Wear protective gloves/protective clothing/eye protection/face protection
P284: In case of inadequate ventilation wear respiratory protection.
P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
P333+313: If skin irritation or a rash occurs: Get medical advice/attention.
P337+313: If eye irritation persists get medical advice/attention.
P403+233: Store in a well-ventilated place. Keep container tightly closed.
P411: Store at temperatures not exceeding 50 °C/ 122 °F.

Please refer to the safety data sheet for additional information regarding this product

Section 3: Composition/ Information on Ingredients

3a Chemical name
Mixture of polystyrene sulfonate in the hydrogen form and trimethylamine functionalized chloromethylated copolymer of polystyrene in the hydroxide form.

3b Ingredients
- Polystyrene sulfonate in the hydrogen form
  CAS# 69011-20-7 (10 - 30%)
- Trimethylamine functionalized chloromethylated copolymer of polystyrene in the hydroxide form
  CAS# 69011-18-3 (20 - 50%)
- Water
  CAS# 7732-18-5 (40 – 70%)

Section 4: First Aid Measures

4a Inhalation
No adverse effects expected. Normal use of product does not produce odors or vapors.

4b Skin
Wash with soap and water- seek medical attention if a rash develops.

4c Eye contact
Wash immediately with water-seek attention if discomfort continues.

4d Ingestion
No adverse effects expected for small amounts, larger amounts can cause stomach irritation. Seek medical attention if discomfort occurs.

Section 5: Fire Fighting Measures

5a Flammability
NFPA Fire rating = 1

5b Extinguishing media
Water, CO2, foam, dry powder

5c Fire fighting Procedures
Follow general fire fighting procedures indicated in the work place. Seek medical attention if discomfort continues.

5d Protective Equipment
MSHA/NIOSH approved self-contained breathing gear, full protective clothing.

5e Combustion Products
Carbon oxides and other toxic gasses and vapors.

5f Unusual Hazards
Product is not combustible until moisture is removed. Resin begins to burn at approximately 230º C. Auto ignition can occur above 500º C.
Section 6: Accidental Release Measures

6a Personal Precautions
Keep people away, spilled resin can be a slipping hazard, wear gloves and safety glasses to minimize skin or eye contact.

6b Incompatible Chemicals
Strong oxidants can create risk of combustion products similar to burning, exposure to strong bases can cause a rapid temperature increase.

6c Environmental Precautions
Keep out of public sewers and waterways.

6d Containment Materials
Use plastic or paper containers, unlined metal containers not recommended.

6e Methods of Clean-up
Sweep up material and transfer to containers.

Section 7: Handling and Storage

7a Handling
Avoid prolonged skin contact. Avoid contact with salts or with salty water to prevent premature exhaustion of the resin. Keep resin moist and avoid allowing resin to completely dry.

7b Storage
Store in a cool dry place (0º to 45º C) in the original shipping container. This product is thermally sensitive and will have reduced shelf life if subjected to extended periods of time at temperatures exceeding 45º C. Although freezing does not usually damage ion exchange resins, avoid repeated freeze thaw cycles.

Section 8: Exposure Controls/Personal Protection

8a OSHA exposure limits
None noted.

8b Engineering Controls
Provide adequate ventilation.

8c Personal Protection Measures
Eye Protection
Safety glasses or goggles.

Respiratory Protection
Not required for normal use.

Protective Gloves
Not required for limited exposure but recommended for extended contact.
### Section 9: Physical and Chemical Properties

### Section 10: Stability and Reactivity

10a Stability                                   Stable under normal conditions.

10b Conditions to Avoid                         Heat, exposure to strong oxidants.

10c Hazardous by-products                       Organic sulfonates, amines, charred polystyrene, aromatic acids and hydrocarbons, organic amines, nitrogen oxides, carbon oxides, chlorinated hydrocarbons.

10d Incompatible materials                     Strong oxidizing agents (such as HNO₃), strong bases (such as NaOH), strong acids (such as HCl and H₂SO₄)

10e Hazardous Polymerization                   Does not occur
Section 11: Toxicological Information

11a Likely Routes of Exposure
Oral, skin or eye contact.

11b Effects of exposure
- Delayed: None known.
- Immediate (acute): Rash or burn caused by acidity or causticity.
- Chronic: None known.

11c Toxicity Measures
- Skin Adsorption: Unlikely
- Ingestion: Oral toxicity believed to be low but no LD50 has been established.
- Inhalation: Unknown, vapors are very unlikely due to physical properties (insoluble solid).

11d Toxicity Symptoms
- Skin Adsorption: Rash or burn.
- Ingestion: Indigestion or general malaise.
- Inhalation: Unknown.

11e Carcinogenicity
None known

Section 12: Ecological Information

12a Eco toxicity
Not harmful to plant or animal life.

12b Mobility
Insoluble, acidity or causticity may escape if wet.

12c Biodegradability
Not biodegradable.

12d Bioaccumulation
Insignificant.

12e Other adverse effects
Not Harmful to the environment.
Section 13: Disposal Considerations

13a General considerations
   Material is non-hazardous.

13b Disposal Containers
   Most plastic and paper containers are suitable. Avoid use of unlined metal containers.

13c Disposal methods
   No specific method necessary.

13d Sewage Disposal
   Not recommended.

13e Precautions for incineration
   May release acids and toxic vapors when burned.

13f Precautions for landfills
   pH of spent resin may be high or low. Resins used to remove hazardous materials may then become hazardous mixtures.

Section 14: Transportation Information

14a Transportation Class
   Not classified as a dangerous good for transport by land, sea, or air.

14b TDG
   Not regulated.

14c IATA
   Not regulated.

14d DOT (49 CFR 172.101)
   Not Regulated.

Section 15: Regulatory Information

15a CERCLA
   Not regulated

15b SARA Title III
   Not regulated

15c Clean Air act
   Not regulated

15d Clean Water Act
   Not regulated

15e TSCA
   Not regulated

15f Canadian Regulations
   WHMIS
   Not a controlled product
   TDG
   Not regulated

15g Mexican Regulations
   Not Dangerous
Section 16: Other Information

The information provided in this safety data sheet is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty or guarantee of accuracy, express or implied is given. Regulatory requirements are subject to change and may differ from one location to another. It is the buyer’s responsibility to ensure that their activities comply with federal, state, and local laws.

16a Date of Revision 31 March 2015
